→ **Enhancement:**

↳ Short Term

- **JAL:** “Renaming the title of the website from “React App” to [your game’s name]?” - Just a quick we missed changing.
- **GeoUnity:** “Maybe the UI could reflect more how it is evaluating Map quizzes - there could be maps, or geography in the background” - We will manipulate the UI a bit more to reflect the topic aside from just the name and logo (E.g. change button shapes).

↳ Long Term:

- **JAL:** “Mobile Friendly? (“On the go” kind of website)”
