Feedback (From last presentation)

- → **Void:**
  - Jump and Launch: "Very nice. Very simple and easy to understand."
- → **Bug:**
  - Professor: Sample game would be nice so users can get a taste of the product before creating accounts and joining.
- → **Enhancement:**
  - *Short Term:*
    - GeoUnity: Allow users to join with a code (even with no account)
  - *Long Term:*
    - Jump and Launch: Let people change backgrounds on quizzes (instead of using a fixed color)
      1. Not a priority for product functionality, but a great idea going forward
